

CALL FOR NOMINATIONS - 2014 KREPPNER AWARDS

Purpose and Description

The late **James Kreppner** was a great friend to HALCO and to people with HIV and Hepatitis C. In recognition of James' innumerable contributions, HALCO established the annual **Kreppner Awards** in 2010. Presented at HALCO's Annual General Meeting, the awards recognize the efforts of people who have made significant contributions in advocacy for and support of people with HIV or people with HIV and Hepatitis C in Ontario, Canada.

Up to two awards may be given each year. One recognizes outstanding achievements in the area of public service, and the other recognizes exceptional accomplishments that might go unheralded or be considered as within the private sphere. Generally, one of each type will be awarded each year, but there is no obligation that awards be given every year.

Eligibility

Anyone who has been employed by, held office with, or received remuneration from HALCO within two years preceding the HALCO annual general meeting in September 2014 is ineligible to receive an award.

Nominations

Nominations should provide specific details of the nominee's accomplishments and relate the nominee's activities to the Kreppner Award criteria. A committee appointed by HALCO's board of directors will acknowledge all nominations, review the nominations, and make a recommendation to HALCO's board of directors.

Candidates selected for an award will be notified by HALCO, and if the candidate agrees to accept the award, the winners will be announced at HALCO's 2014 annual general meeting and the awards presented.

The deadline for nominations is June 30, 2014. Late submissions will not be accepted. Nominations must include the name and contact information of the person making the nomination. Nominations may be printed, written or typed and delivered by hand, mail, courier, FAX or e-mail to HALCO, at:

Kreppner Awards Committee
